

**RESOLUTION NO. 04-1197**  
**November 10, 1997 – 237<sup>th</sup> Board Meeting**  
**CONFIRMATION OF ECC REQUIREMENT FOR WPAs**

RESOLVED, AS IT IS HEREBY RESOLVED, to confirm the following policies in the processing of the Water Permit Applications:

To require as prerequisite the Environmental Clearance Certificate (ECC) for Environmental Critical Projects (ECPs). E.g. mining, industrial, as well as for projects located in Environmentally Critical Areas (ECAs) e.g. tourist spots, cultural areas, protected watershed areas and others.

In case of golf courses development, a certification as to availability of water may be issued by the NWRB to initiate the Environmental Impact Study by the proponent.

RESOLVED FURTHER, to act on Water Permit Applications for the above condition that the water permit will only be issued once the required ECC has been approved by DENR.
