

**RESOLUTION NO. 05-0692 (AS AMENDED)**  
**July 13, 1992 – 115<sup>th</sup> Board Meeting**

RESOLVED, AS IT IS HEREBY RESOLVED, to allow the appropriation of groundwater beyond the mining yield, particularly in areas where existing appropriation has already exceeded groundwater mining yield, provided that said additional withdrawal shall be limited to ten percent (10%) of the aquifer mining yield or at such quantity that the exhaustion period shall not be shortened to less than forty (40) years, whichever is smaller.

RESOLVED FURTHER, that in case there will be a need to reduce the number of appropriators, the last appropriator will be the first to be retired.

RESOLVED FINALLY, that as soon as alternative surface water sources become available, the amount of groundwater withdrawal shall be reduced correspondingly and limited to safe yield level.
